**Vendor Business Manager | Channel Sales & Technology Specialist | Data Analyst**

Sydney, NSW, Australia | +61 470 648 586 | [umer.bashir@outlook.com](mailto:umer.bashir@outlook.com) | Australian Citizen  
[linkedin.com/in/umerbashir](https://linkedin.com/in/umerbashir) | [datascienceportfol.io/umerbashir](https://datascienceportfol.io/umerbashir)

## PROFESSIONAL SUMMARY

Results-driven Channel Sales and Technology professional with 9+ years at Ingram Micro ANZ managing a ~\$20M multi-vendor SaaS, cloud, EUC, and automation portfolio. Proven track record of delivering 103% YoY revenue growth by building high-performing partner networks, executing go-to-market programs, and translating complex technical solutions into commercial value. Complemented by hands-on Data Analytics capability (Excel, SQL, Power BI, Tableau, Python) and a Postgraduate Diploma in Cyber Security (UNSW). Experienced in Agile delivery, stakeholder engagement, and cross-functional leadership across ANZ markets.

## CORE COMPETENCIES

- Channel Partner Management & Development
- Go-To-Market (GTM) Strategy & Execution
- SaaS / Cloud / EUC Portfolio Management
- Revenue Growth & Deal Registration
- Business Development & Pipeline Management
- Vendor Relationship Management
- Data Analytics & Power BI Dashboards
- SQL, Python, Tableau, Excel (Advanced)
- Stakeholder Engagement & Presentations
- Agile Delivery, Jira & Confluence
- Cyber Security Governance (UNSW)
- Product Management & Roadmap Planning

## PROFESSIONAL EXPERIENCE

### Data Analyst | [datacareer.app](https://datacareer.app)

Dec 2025 – Present • Sydney, NSW (Contract)

- Built end-to-end Power BI pipelines from BigQuery: schema exploration, six production SQL queries, DAX measures, and two-page interactive dashboards surfacing platform KPIs (pass rate, churn, conversion).
- Designed and delivered a LinkedIn Analytics Dashboard (83 posts, 365 days) with benchmarked engagement metrics, heatmap analysis, and executive-ready insights documentation.
- Co-developed a data role classification framework categorising 2,948 Australian job postings using rule-based keyword matching; presented findings in a 16-slide executive deck.
- Applied Agile principles using Jira and Confluence for backlog management, sprint planning, and MVP delivery.

### Vendor Business Manager / Product Manager | [Ingram Micro](https://www.ingrammicro.com)

Aug 2018 – November 2025 • Sydney, NSW

- Managed a ~\$20M multi-vendor portfolio spanning Omnissa (Workspace ONE, Horizon, UEM, Identity), VMware Cloud/VCPP, UiPath, and Dropbox across ANZ, consistently exceeding revenue targets including 103% YoY growth.
- Architected and executed channel go-to-market programs, partner enablement workshops, and co-sell initiatives that measurably expanded partner pipeline and deal velocity.
- Led full sales cycle support — deal registration, quoting, pricing, solution configuration, and opportunity management — for enterprise EUC, cloud collaboration, MDM/UEM, and AI-powered automation solutions.
- Translated complex technical solutions (identity management, virtual desktops, RPA, AI agentic frameworks) into clear commercial value propositions for channel partners and end customers.
- Drove cross-functional alignment across vendor BDMs, internal product teams, marketing, and operations to deliver strategic initiatives on time and within budget.
- Built and maintained recurring executive-level reporting (fortnightly vendor meetings, SPIFF dashboards, ORAN registration tracking, H2 planning documents) using HTML, Power BI, and Excel.

- Developed a Dropbox Sales Forecast Portal with YoY comparison and special deals detection, and produced partner event/webinar campaigns for Omnisia, Nutanix, and UiPath.
- 

### Licensing Specialist | Ingram Micro

Nov 2016 – Nov 2018 • Sydney, NSW

- Supported VMware and SaaS licensing portfolios with commercial modelling, partner engagement, and end-to-end sales cycle execution.
  - Inbound / Outbound support - Pre-Sales / Post Sales engagement and problem solving
  - Oversee the full sales cycle including quoting, renewals, pipeline tracking, objection handling, and escalation management to maintain high KPI performance.
  - Ensure timely deal registrations, licensing accuracy, and alignment between vendor requirements and customer outcomes
- 

### Support Associate | Dimension Data / NTT

Jan 2016 – Nov 2016 • Perth, WA

- Provided technical support and client-facing services within a managed IT services environment.
  - Inbound / Outbound support - Pre-Sales / Post Sales engagement and problem solving.
  - Managed **national and key customer accounts**, supporting day-to-day enquiries and service delivery requirements
  - Prepared and managed **quotations across hardware, software, and services**, ensuring accuracy and timely turnaround
- 

### Senior Supervisor, Services Renewals | PCM / En Pointe Technologies

Jun 2011 – Jan 2014 • El Segundo, California, USA

- Led a renewals team managing large-scale IT services contracts; promoted to Senior Supervisor within 5 years of joining.
  - Inbound / Outbound support - Pre-Sales / Post Sales engagement and problem solving across US Clientel for PCM/ EnPointe Tech US
- 

## KEY ACHIEVEMENTS

- 103% YoY Revenue Growth — delivered over-target results managing a \$20M+ ANZ technology portfolio at Ingram Micro.
- End-to-End Data Pipeline — designed and deployed BigQuery → Power BI dashboards revealing 97–100% churn and 16.67% conversion insights for datacareer.app.
- Partner Network Expansion — built and scaled high-performing channel partner ecosystems across EUC, cloud, and automation solution sets.
- Cross-Functional Leadership — coordinated vendors, BDMs, marketing, and operations to execute multi-vendor GTM programs across ANZ.
- Data-Driven Reporting — created SPIFF eligibility dashboards, ORAN registration trackers, and sales forecast portals adopted as standard vendor reporting tools.
